

Missouri River

ENV 2.2 Continue to maintain, protect and enhance the environmental values and the natural attributes of the Missouri River system.

Policies

- Env2.2.1 Identify, stabilize and manage the Missouri's floodplain and river bank so as to protect the river, its riparian assets and adjoining lands.
- Env2.2.2 Partner with the State and Cascade County to establish an equitable Total Maximum Daily Load (TMDL) for the long-term health and maintenance of the Missouri River. Implement Phase II Storm water regulations in the City, including Best Management Practices (BMPs).
- Env2.2.3 Continue to identify and remediate groundwater, point and non-point impacts to the River's water quality.
- Env2.2.4 **Develop, maintain and enhance the River's value as a public amenity and resource, including resource management determined to be consistent with these values, such as:**
- Public access, connectivity and viewing
 - Recreational values
 - Urban habitat
 - Leisure, dining and mixed-use development
 - Education
 - **Designation as a National Heritage area**
- Env2.2.5 Continue to implement the *Missouri River Urban Corridor Plan* as the long-term vision for the river system.
- Env2.2.6 Support mixed-use and commercial development that will enhance the Missouri River consistent with the vision identified in the *Missouri River Urban Corridor Plan*.
- Env2.2.7 Expand access to and use of the River's Edge Trail.
- Env2.2.8 Explore the use of digital wayfinding along the trail and at other key junctures in the City.
